

A Nordic market for innovative health and welfare solutions and technologies

9. September – 13:30 – 16:00

Looking for insights on and funding opportunities for innovative Nordic health and welfare solutions and technologies?

Join this seminar where key persons behind Nordic programmes, calls and challenge prize competitions present their activities and your opportunities to be a part of these.

Who should joint his session?

The target group for our session is a wide range of organisations engaging in health and welfare innovation. In addition to public sector organisations such as hospitals, regions, municipalities and agencies - test beds, business clusters, technology transfer offices (TTOs), innovation centres, private equity investors, funding bodies, export promotion bodies and universities are also the target group for the sessions and the programs, calls and challenges that will be presented.

This is great opportunity to get a good understanding of what is going on in the Nordics to stimulate collaboration and innovation across the Nordics. Hereunder funding opportunities and finding collaborative partners.

Agenda

- | | |
|--------------|--|
| 13.30 | Welcome
by Dennis Søndergaard from Nordic Welfare Centre, Mona Truelsen from Nordic Innovation and Kai Koivumäki from the Nordic Council of Ministers. |
| 13.35 | Sustainable Nordic Welfare: programme overview
The Nordic Council of Ministers are putting a lot of resources into research and activities around Nordic welfare. Kai Koivumäki, senior adviser in numerous programmes run by the Nordic Council of Ministers, will give you an overview of the programme Sustainable Nordic Welfare - their newest research and activities. |
| 13.50 | Nordic collaboration on welfare tech
The Nordic countries are investing a huge amount of money in developing new welfare tech solutions. How can we collaborate on a Nordic basis, by Dennis Søndergaard from Nordic Welfare Centre. |
| 14.10 | Innovative Nordic Welfare Solutions: Calls and competitions
Nordic Innovation presents the Nordic lighthouse project Innovative Nordic Welfare Solutions - hereunder the newly released call (NOK 25 mill) for proposals on Nordic projects focusing on new Nordic business models, Nordic test bed cooperation and export and branding for innovative health and welfare solutions. A challenge prize competition on independent living will be launched in early 2015. This will be introduced by senior advisers Mona Truelsen and Arvid Løken, from Nordic Innovation. |
| 14.40 | Group discussion: A Nordic market for health and welfare solutions and technologies - how to succeed and with whom?
We explore how a Nordic market for health and welfare solutions and technologies can be boosted and create a strong platform for you as a demander, deliverer and researcher within of health and welfare solutions and technologies can succeed in the Nordics. |
| 16.00 | Thank you for today
by Dennis Søndergaard, Nordic Welfare Centre, Kai Koivumäki, Nordic Council of Ministers and Mona Truelsen, Nordic Innovation. |
